

"The 4th Aji Beach Cleaning with Bhutan & Cambodia"

On April 17, 2021, "The 4th Aji Beach Cleaning with Bhutan & Cambodia" was held at Kamano beach and Aji Marine Station by Aji Beach Clean Executive Committee which is consisted of Kagawa University International Office, Union of Kamano Residents Association and Aji Branch of Takamatsu City Council of Social Welfare.

Purpose of this cleaning work was to deepen the understanding of environmental problems caused by marine plastics, and to learn about the life and culture of Japan and foreign countries through marine garbage and river garbage, in addition to collaborate with locals and to promote international exchange. It was the first online real-time event with overseas using Zoom.

Although it was the beach cleaning in light rain, we were able to pick up a lot of marine garbage. The online meeting with Bhutan and Cambodia was also able to done without any major problems. It was a very meaningful day.
