The Project of Cooperative University Education based on e-Knowledge

As part of the Project to Establish a Knowledge Platform through Cooperation among Five Shikoku Universities, the University Alliance based e-Learning Support Center in Shikoku operates at Kagawa University. By providing a joint university education program based on e-Learning technology*, this institution aims to improve the quality of education at the member universities.

*Using the e-Learning infrastructure established and managed by the e-Knowledge Consortium Shikoku (ek4) being operated by the five national universities and three public/private universities in Shikoku.
