ZOOM

Class Summary

- The aim of this class is to generate increased confidence and competence in students' ability to use English.
- The class will be taught in an interactive way. There will be core study about pronunciation and students will have their questions about English usage answered.

Attainment Targets

- The objectives are to increase students' knowledge of how English is used in a variety of contexts, mostly speaking and listening, and to help them apply this knowledge.
- By the end of the course students are expected to:
 - Have a better understanding of English may be spoken around the world.
 - Have improved their ability to communicate in English, informally and formally, with increased accuracy and fluency.
