

Model United Nations

Instructor

Andrew Caldwell (Global Caf  Adjunct Instructor)

Class Dates

Mondays 12:10 – 12:50

October 4th – December 20th, 2021

Online Method

ZOOM

Class Summary

- Students will learn about International Diplomacy by using the Model United Nations
- Students will learn correct vocabulary and terms associated with the Model United Nations
- Topics based on SDGs will be discussed

Attainment Targets

- Students will learn to negotiate, debate, and make resolutions in order to solve a social or environmental issue.
- In Model UN, participants learn about a global issue and are assigned to a specific country. In a simulation that mirrors a UN committee session, students (or delegates, as we refer to them!) give speeches, engage in formal debate, collaborate and negotiate ideas, draft solutions (referred to in Model UN as “resolutions”), and vote. Using parliamentary procedure to structure debate (just like the real UN!), students have the opportunity to build skills for life and leadership while learning about a complex global issue.
